**1. BACKGROUND**

MICT SETA, one of the Sector Education and Training Authorities (SETA's), was established in March 2000 to transform the skills profile of the Media, Information and Communications Technology (MICT) sector. It operates within the context of the National Skills Development Strategy to raise the levels, quality and relevance of the education and training in the sector and encourages partnerships between the public and private organisations to benefit employers, employees and the unemployed.

The MICT SETA's operations are geographically dispersed with the Head Office in Midrand and three (3) branch offices spread countrywide. Its stakeholders are geographically spread throughout the country.

In order to most effectively serve the Media, Information and Communications Technology industry, and to cope with the volume of requirements, the MICT SETA requires effective Information Management (IM) processes and systems. IM services and access are provided to MICT SETA personnel at its Head Office and regional offices. Stakeholders have internet access to the MICT SETA's information via its website and limited, controlled access to some of its systems' functionality that is exposed to the web.

The MICT SETA's IM services are currently provided by an external service provider on the basis of a provision of Intergrated ICT Management System for ETQA, Learnership, Levies and Grants, Skills Development and Programmes, Document Management and Archiving with specific reference to the SETA environment.

The MICT SETA processes are currently supported by the following applications architecture:
